PROFILE SUMMARY

Organized and self-motivated software engineer with 1.8 years of professional experience. Proficient in Angular 16, HTML, CSS, and JavaScript. Experienced in Agile development, leading Scrum meetings, and managing tasks to ensure timely and defect-free project deliveries. Committed to continuously updating technical skills through courses and bootcamps. Reliable and responsible team player dedicated to delivering high-quality code and solutions.

PROFESSIONAL EXPERIENCE

Beinex Consulting Pvt Ltd – Software Engineer   Jan 2022 – May 2024

- Scrum Meetings and Coordination:
  - Led and participated in daily Scrum meetings to communicate work progress and address potential roadblocks.
  - Ensured effective coordination among team members.
- Task Management and Transparency:
  - Maintained daily task sheets and feature-based task lists.
  - Provided transparent visibility into progress, facilitating efficient tracking of project milestones.
- Development and Testing:
  - Responsible for developing and testing assigned features and functionalities.
  - Achieved on-time delivery with zero defects.
- Code Quality Assurance:
  - Utilized SonarQube to ensure clean and effective code.
  - Focused on maintaining high code quality standards.
- Data Visualization:
  - Designed and implemented multiple dashboards.
  - Leveraged D3 charts, including horizontal progress bars and vertical stacked charts, to enhance the visual representation of product data.
- Bug Resolution and Client Experience:
  - Resolved bugs across various environments (production, pre-production, staging, and development).
  - Ensured a seamless experience for clients by addressing issues promptly.

IDFC FIRST BANK – *Acquisition Process Officer*   Jul 2019 – May 2020

- Compliance with Policies and Regulations:
  - Ensured that all procedures related to account opening and KYC (Know Your Customer) verification were strictly in line with the bank's internal policies.
  - Adhered to all relevant regulatory and legal requirements, guaranteeing compliance and minimizing risk.
- Issue Escalation and Resolution:
  - Proactively identified and escalated any issues encountered during the account opening or KYC processes.
  - Collaborated with various departments and senior management to ensure timely review and resolution of these issues.
- Review and Verification:
  - Conducted thorough reviews of new account opening requests submitted by customers.
  - Verified that all necessary information and supporting documents were complete and accurate, ensuring a smooth onboarding experience.
